College Who's Who Selects 17

Seventeen seniors are being honored with election to the 1950-51 edition of "Who's Who Among Students in American Universities and Colleges." The book numbers candidates from more than 600 colleges and universities all over the country.

It operates mainly as a national placement service for its selected candidates. A group of seniors and underclassmen chose 25 members of the senior class on the basis of scholastic abilities, extra-curricular activities and personal characteristics. This list was then forwarded to the administration who selected on the basis of enrollment 17 nominees and sent them on to the editor of "Who's Who."

There were nine seniors among the nominees who had been elected to Delta Epsilon Sigma a few weeks ago. Those who were selected are:

Paul E. Boucher, a native of Highgate, Vt., and a Math major, the president of the Mission Crusade

Senior Ball Will Be Held Dec. 9

St. Joseph's Hall Is Hit Hard By Storm

A result of the "big wind" of last weekend is shown above where two trees were blown directly in front of St. Joseph's Hall.

Divine providence and Mr. Buchan's maintenance crew conspired last weekend to keep St. Michael's on the map. The college, high on this windy hill, was caught in the teeth of the storm but relatively little damage was done due to the work of the maintenance crew who battered down all hatches and generally made the college weather-worthy.

Mr. John Buchan, Business Manager of the college, stated that the damage to the school amounted to approximately $2500. In comparison with the damage inflicted to the surrounding territories, this figure is slight.

Damage was done to the Science Hall where a number of slates from the roof were blown from their places. Trees were blown down in various parts of the campus, most noticeable damage was in front of St. Joseph's Hall where a young poplar was downed directly in across the path of the hall

On the other side of the Athletic Field, many young trees of various pedigrees were struck forcefully by the high winds and lashing rain. The winds which were registered at the airport a two short miles away were at a velocity of 106 m.p.h. at their highest point.

The freakishness of the storm was evident in the way the wind lifted a new garage for power equipment right off the machinery, hurled it 20 feet up a hill and across the lot into the rear porch at St. Joseph's. The roof at St. John's was also damaged.

Dr. Novikoff Bio Speaker

On December 5, in Science Hall 107 at 7 P. M., Dr. Alex Novikoff will give a short talk on Carbohydrate and Intermediary Metabolism.

Dr. Novikoff is Assistant Professor of Pathology at the University of Vermont College of Medicine and is at present engaged in cancer research.

He will be remembered by the Biology Club for the talk he gave last year on cancer and problems faced by the cancer researchers at that time.

Dr. Novikoff's talk will be supplemented by a movie on the subject. During the recent war he assisted in the making of this film for the government.

Club News

At the first meeting of the school year, the Honorary Chemistry Society drew up tentative plans for a dinner-dance to be held sometime in the near future.

This social affair would be held in conjunction with a similar function of the Biology Club.

After the business of the meeting, John Medrek delivered a very interesting, and somewhat humorous paper entitled, "The History of Phosphorus." In order to round out his lecture, he then performed three demonstrations of the oxidation of phosphorus.

The meeting was closed by a few words of encouragement from Mr. Roger Keleher, the new moderator of the society. Mr. Keleher became moderator upon the departure of Mr. Otto Kohler from the college last June.

Wanted, for the MICHAELMAN staff...Photographers...Unlimited opportunities for the fellows with a background in photography.

Night of Knights Show Is Success

The students of St. Michael's College presented their 1950 performance of the "Night of Knights" last Monday evening, November 20 before a crowd of 2000 at Memorial Auditorium. The proceeds will be given to the Burlington Boys' Club.

For the second consecutive year, the Michaelmen brought forth a talent-packed show, jammed with highlights of hilarity. It would indeed be an impossible task to mention its entire cast, for in their own manner they all displayed excellent talent.

General direction of the show was under the tutelage of Prof. Cornelius K. Hannigan who contributed his time and efforts to make "Night of Knights" a successful show, enjoyed by so many.

The Michaelmen were very willing to offer their time and talent to, in some way, aid the young men of Burlington in becoming better American citizens and men of tomorrow. Due to their performance in "Night of Knights" the Michaelmen were able to contribute nearly 700 dollars to the Boys' Club fund, and also to show appreciation for the hospitality shown them by the city of Burlington.

Will Be Feature Of Senior Year

By Art Kiernan

The annual Senior Ball and Ring Dance will be held at Austin Hall, Saturday, December 9, said co-chairmen Chub Helfrich and Don Haywood.

The dance, usually the most gala affair of St. Michael's social season, will last from 9 to 12 and music will be provided by the very popular Arabian Knights. Besides the seniors, a very limited number of juniors will also be invited.

All the men in charge of the various committees have worked hard to make this dance a success. They are John Rachel at the tickets, John LaBonte covering the publicity, the waiter and soft drink committee headed by John Weiman, Bernie Smith at the checking committee and Ed Leavy in charge of decorations.

The chaperons for the dance will be Dr. and Mrs. Jeremiah K. Durick, Mr. and Mrs. Harold Carr and Rev. Edward Tining, S.S.E.

Sunday Movie

The movie to be shown in Austin Hall tomorrow night will be "Texas" with Glenn Ford, Claire Trevor, and William Holden. The movies start at 7:00 P.M. Donations are 10¢ per head.

Tomorrow we begin another season of Advent.

As always it should be a season of blessed preparation for the coming of the Christ-Child, but this year, perhaps more than any other time in the history of mankind, Advent should have a special religious significance for us.

Instead of merely turning our minds towards gifts, Christmas trees, beautiful decorations, etc., as we are prone to do during this season, let us transcend the material and devote more thought to the spiritual.

These are certainly times when prayer is in order. Though there is nothing wrong with the celebrations and spirit of good feeling which accompany the Christmas season, the real meaning of Christmas should not be obscured. Our rejoicings should certainly not be based on the fact that we'll have a few days off from our labors, or that we'll receive gifts, and other strictly material enjoyments. There is nothing wrong with these. We do not say that. In their place they are all well and good. But they should not be carried to extremes.

Uppermost in our minds during this yuletide season in particular should be the anticipation of the birthday of Christ, Our Lord and Saviour, who came upon this earth nineteen hundred years ago to redeem mankind from its evil state. Once again men are dying throughout the world to preserve these ideals that Christ has given us.

Korea now.

Who knows where next?

What better time than the present, with the beginning of this Advent, to turn our hearts and minds to Jesus, Mary, and Joseph, the Holy Family. They have saved the world from impending disaster before. They will do it again, if man will break the ice around his heart and pray.

Since we recognize that Christmas is a time for giving and receiving why not give Christ prayer, and, who knows, in return He may give us that peace that we all so desperately desire.

In any event it is well worth the effort. We will be the winners. On the other hand we will be the losers.

" Danger for danger's sake is senseless."

We often wonder if some of the St. Michael's students realize this. There exists unfortunately at this college a group of frustrated " stock car" drivers. These perennial " Hot rods" choose to gain the vicarious pleasures of racing on and around the college campus.

It is not unusual to see a car racing around campus, its driver apparently bent on picking off some hard marking member of the faculty, or otherwise trying to escape some dire fate. The unfortunate part of this is that not only the lives of the faculty are in danger but also the lives of all Michaelmen.

Of special interest is the safety of the small children in Miketown. Death or injury to one of these little children would hurt not only that family, but also the entire family that we pride ourselves on being. The children should be able to regard all Michaelmen as big brothers not potential killers.

Remember also that a car can kill a 200 pound football player just as quickly as it can one of these children.

So, Michaelmen, protect yourselves and everyone else by safe driving. When you step out of your car, you cease to be a driver and become a pedestrian. The life you save, by good example, may be your own.

Will You Listen To Me!

Fr. Hebert of the Vocational office has again issued a call for all seniors to report to his office as soon as possible to fill out an Employment form. This same notice appeared two weeks ago in the MICHAELMAN, but very little response was made by the not so vigilant seniors.

Fr. Hebert needs information on THE WHOLE CLASS, and not that of the few individuals who have already reported. The data are needed to inform prospective employers throughout the country of the material St. Michael's College has to offer to the labor market. Ten minutes is all the time it will take to fill out this form in Fr. Hebert's office.

" It makes no difference," said Fr. Hebert, " if you already have a job lined up or that you expect to go into the armed forces, we need this information." Personal views of the college graduate as regards employment is the paramount idea of this questionnaire ... Therefore, all seniors must report as soon as possible to the Guidance Office.

HILL WIND

By Ward Macnesney

In general, what is your opinion of the MICHAELMAN

Tom Duggan
West Roxbury, Mass.

A school paper should have its main objective campus news on an informal basis. Most students realize the fact that it cannot be personal as the student body is too large. The MICHAELMAN has accomplished this and I feel that the general policy of the paper is sound and should continue in the same manner.

Owen Shevlin
Glens Falls, N. Y.

In general my opinion of the MICHAELMAN is favorable. However, I am unfavorable to the omission of a gossip column such as last year's " Mike Column," as this type tends to personalize the interests of the students.

Marty Gleason
Northampton, Mass.

The editors and reporters of the MICHAELMAN deserve a great deal of credit for the work that goes into its publication. However, I believe that the staff should be given more freedom as regards to choice of material. The paper should contain material for the students' information and entertainment.

By Joseph Michael Shea, Jr.

Thanksgiving, football and Indian Summer have gone their colorful and merry ways. Necessarily, we on the Hilltop find ourselves facing that period of great tribulation. I refer, of course, to that which has been for generations the nemesis of the average Michaelman: Winter in Vermont. With the coming of those bleak, grey dawns, coupled with flurries of geometry in white, we tighten our belts, button our coats, break out the " Long Johns" and face King Winter with a frozen smile...

Gone for a while will be the promenading couples, the trips to Burlington and to the C'est Ci Bon. As the mercury drops to the bottom of the globe the consumption of that which the Snack Bar is pleased to call coffee will increase 400%. The boys will stay closer to home than they ever dreamed possible, and the shambles we call rooms will become the scene of frequent bull sessions. These will last far into the night. More and longer letters will be written home and often those who received the numbing shocks of quarterly marks will be known to study.

Every frosty morning roommates will feign sleep in the futile hope that the other (through sheer grit or a harassed Prof. who counts the lates after 8:15) will tear himself from the blissful cocoon of warm blankets to stand shockingly in the icy blasts, trying in vain to slam a swollen window which sticks only when it is cold. Everyone will start talking about transferring to the University of Miami in February and the one student on campus who comes from there to here attempts suicide for the third time in as many years without success.

As I said before, this is what happens to the average Michaelman. There are those among us however, that look forward with eager anticipation to the first big storm. The hockey players scrape the snow from the rink and if perchance the ice is good, they dash for their blades and stick. Fr. Dube, who is wise in the ways of Michaelmen, gets everything in readiness at the " hotel" and calmly awaits the first of the casualties. After a few hard days of winter sports the campus looks like a mecca for bandage rollers. Groups of student admirers gather around to inscribe their names on the cast and listen to how the hero almost made it down " Teardrop." ... If only they hadn't zigged when they should have zagged...

And so it goes, all through the winter, the nights grow long and the tempers grow short, the doctors grow rich and the students grow poor. The juniors tell the freshmen how bad it was back in '48. The seniors stop complaining and go back to their potency and act smug in their satisfaction that this (they hope) will be their last winter in Vermont. ... And as someone once said, " If winter comes, can spring be far behind?" Obviously he never lived in the vicinity of the Green Mountains

Court Season Opens Tonight Against Dartmouth In Barre

Frosh Gridiron Record Unbeaten-Unscored On

By Frank Hoben

Believe it or not, St. Michael's Freshmen have completed another highly successful season. Almost without notice Coach Barry Branon's yearlings breezed through a three game schedule without the closest resemblance of a defeat. In fact, not only were they undefeated and untied, but also unscored upon - a rarity in these days of inflation & high football scores. The Squires' victims included previously undefeated St. Lawrence Frosh (25-0), Vermont's Frosh (21-0), and the also hitherto unbeaten Cubs of Middlebury (24-0).

It is interesting to note that the leading role in this huge success was played by a very small halfback, namely Paul Landry. An All-New Hampshire selection at Concord High a year ago, Landry, at 140 pounds, was brilliant in the ball-carrying department. He personally accounted for 42 points on seven touchdowns to lead the club in scoring. His greatest performance was at Middlebury where he tallied all four of the St. Mike's TD's. Other point-getters were ends Paul Crotty, from Bellows Falls, Vt., with three touchdowns and Jim McDonald with one. Both were impressive in all around play. Bob Leahy and Joe Tricarro fulfilled their pre-season promise with terrific line play. Joe Antone, a stocky 190 pound product of Brockton, Mass., was also impressive, and the great line-backing of Mike Ahearn stamped him as serious contender for varsity material.

Unfortunately the Frosh did not have a game at the Hilltop this year, for interest in them would have been much greater. As it was the fine job turned in by Coach Branon and the whole squad cannot be fully appreciated. Thus, a sincere, although slightly delayed, pat on the back to the Squires, who have insured everyone of capable newcomers to next Fall's varsity squad.

by Dan Tarpey

How about this: Returning a couple years back we find some of the headlines included: Art Coggio, Everett, Mass., limped onto the gridiron to drop kick an extra point that tied Colby 7-7; Jack Daly, Floral Park, N.Y., at 123 pounds, the lightest back in college football, gained 570 yards; Tommy Sullivan, Winooski, Vt., batted Don Naples, Staten Island, N.Y., down to the final time at bat to take the Vermont college laurels with a .426, a fraction of a point higher than teammate Naples; Al Hannoosh, of Lynn, Mass., St. Michael's guard, went from 252 to 256 pounds in grid practice; Billy Hart, Williamstown, Mass., was the first three letter athlete in 13 years, winning awards in football, basketball and baseball.

Barry Branon returned to his Alma Mater to take over basketball coaching filling Bennie Borgman's shoes. -----

New England College football makes its final bow today with the annual BC - HC affray. A final bow to BC football will be made by Coach Denny Myers, and while speaking of bowing, the Eagles will do just that, when they meet the boys from Mt. St. James. HC - 20 - BC - 7.

Having witnessed Duke Nelson's bargain basement team in the U.V.M. tilt, I have suddenly decided to become a promoter. Now, U.V.M. proved to be about 4 T.D.'s better than Middlebury while the Knights on the other hand, were rated the same over the University. Hence, that makes us about 8 T.D.'s better than the Panthers, and places them in about the same category as Loyola. So, instead of a post-season S.M.C. - Middlebury encounter, which we were anticipating if the latter had toppled U.V.M., why not a bowl game between Loyola - Middlebury. -----

Statistics on last week's Michigan - Ohio State clash were most illuminating. Ohio made three first downs to none; Ohio completed the only three passes that clicked; Ohio gained sixteen yards on the ground to twenty-seven by Michigan.

In the first quarter Michigan blocked a kick for an automatic safety and trailed 3 to 2. In the second quarter Michigan blocked another kick for a touchdown and won 9 to 3.

In this contest there was a total of forty-five punts, six of them jammed within ten plays, an amazing number in this day and age. -----

Game Benefits Barre Charity

Dartmouth has little to show this year, in comparison with their past records. Last year, the Green won but 8 games while losing 17. Prospects this year don't look too much brighter either. With only two starters returning and three other lettermen, Coach Doggie Julian hopes that this season he can start to build up the team that had led the Ivy League from 1938 to 1945.

Returnees from last year's starting quintet will be captain and playmaker Bob Hustek, a 6 foot guard from Bridgeport, Conn., and Bill Biggs, a 5' 11" forward from Evanston, Ill. Other lettermen coming back will be 6' 5" Jim Ballard of White Plains, N. Y., Kent Calhoun, a 6' 2" senior, and John McDonald, a 76" Port Henry lad.

An inexperienced, but nevertheless tall boy who is sure of seeing plenty of action is 6' 7" Warren Mulloy. Coach Julian is expecting a lot of good basketball from the native Media, Pa. Also, as part of his building plan, Julian will give a couple of 6' 5" boys, Wally Jennings, a sophomore, and Lenny Hedberg, a junior, plenty of chance to show their wares.

On our side of the ledger, things are looking up. After a successful scrimmage with Montreal's YMHA Coach Barry Branon has announced three starters at this writing. They are Jimmy Farley, Paul Stapleton, and 6' 6" Ted Burzenski. "Fancy" Farley and tall Ted Burzenski were mainstays of a winful past season.

Vying for other starting berths are veterans Danny McCarthy, Bob Duffy, Ed Markey, and Bob Kateley.

Introducing

Barry Branon

Barry Branon, who needs no introduction has again returned to coach the Purple Knight hoopsters, after completing a very successful season last year in which the Purple & Gold recorded a brilliant record of 17 wins and 5 losses. With this brilliant record, the Purple Knights gained their fourth Green Mountain Conference court championship and walked off with scoring honors and All-State selections. In compiling this amazing record, the Purple basketballers won nine straight without tasting defeat setting a new St. Michael's court record.

Coach of last year's state champions in varsity basketball and in freshman football, Coach Branon broke into varsity coaching after great success at Newport and Rutland High.

Before graduating from St. Michael's in '36, Barry captained the baseball and basketball teams in his senior year and is one of the few three lettermen of St. Michael's College. Incidentally, Barry was not the only member of his family to attend St. Michael's as his father and five brothers have been Michaelmen.

Who's Who

Continued from page 1

Robert A. Gelinas, a Bay Stater from Chicopee Falls, Mass., is majoring in Business Administration. He is an active member in the Debating Club, the Outing Club, the SAC and MICHAELMAN.

James P. Whitlock majored in Business Administration and comes from Charlestown, Mass. He is a four letter man in Football and Hockey and a member of the SAC, and Junior and Senior Prom Committees.

Harold J. Young comes from Proctor, Vt., and is a Business Administration major. He has served on various dance committees and was Headwaiter of the College Dining Hall in his Senior year. He is also a member of the Philosophy Club.

Joseph M. Shea is majoring in English and is a native of Springfield, Mass. He is a member of the SAC, MICHAELMAN and the Mission Crusade. He was also General Chairman of the Junior Prom,

William J. O'Hearn, of Everett, Mass., is an Economics major. He is president of the Outing Club, was a member of the Junior Prom committee, the Winter Carnival committee, the SAC, and the Delta Epsilon Sigma.

John F. Aubry of Bell Harbor, N. Y., is an English major. While an undergraduate, he was active in the production of various college publications, a member of the SAC, the SHIELD, and the Senior and Junior Prom committees.

William A. Cofrances is a B.A. major in Social Studies who hails from Hampden, Conn. He is well known for his ability as a band leader and musician while an undergraduate. He was president of the Mission Crusade.

Timothy C. Murphy of Weevertown, N. Y., has a double major in Business Administration and Economics. He is a member of the MICHAELMAN staff, was Advertising Manager, Business Manager

Charles E. Flanagan is a native of Nantucket, Mass., and majored in Business Administration. He has been active in the choir, mixed chorale and glee Club, a member of the Night of Knights and the NFCCS talent show.

Robert M. Flanagan expects to receive his A.B. in English in June and hails from Nantucket, Mass. He has been Editor of the SHIELD and MICHAELMAN, Secretary of the SAC, Frosh Week and Junior Prom committee and Junior Class play.

Edward J. Krupinsky, of Springfield, Vt., is a Sociology major. He is a three letter man: Football, Baseball, and Basketball and a member of the Dean's List since his Freshman year. He was also elected to Delta Epsilon Sigma.

David C. Mauzeraul, who expects to get a B.S. in Chemistry, comes from Sanford, Me. He is the president of the Honorary Chemistry Club.

William E. Kennedy, an English major from Springfield, Mass., is Managing Editor of the MICHAELMAN this semester, and will be Editor-in-Chief during the next semester.

James H. Barry, of Beverly, Mass., is a B.S. major. During his undergraduate days, he was active in the Sodality, Golden Gloves team, Intramural sports, a member of the SAC and the SHIELD. Jim is the class president and a Delta Epsilon Sigma candidate.

Ramon S. DeJesus hails from far away Malabon, Rizal, Philippine Islands. He is a Biology major. "Ray" is the president of the Biology Club, Honorary member of the Chemistry Society, and a four year member of the Dean's List.

Raymond J. Doherty of Newton, Mass., expects to receive his A.B. in English in June. A member of the MICHAELMAN staff since his Sophomore year, hewas News Editor last year and is Editor-in-Chief this semester. Ray is also college sports publicity assistant

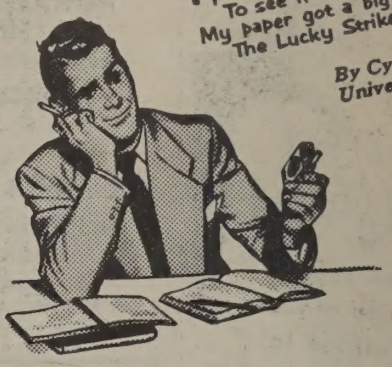
Be Happy- Go Lucky!

The campus queen is now my girl;
My charm, sir, leaves her weak.
She's dropped her other boyfriends for
My Lucky Strike technique.

By John Scholding
Temple University

I put a Lucky with my test
To see if it would pay.
My paper got a big flat F;
The Lucky Strike an A.

By Cy Kees
University of Oklahoma



Enjoy your cigarette! Enjoy truly fine tobacco that combines both perfect mildness and rich taste in one great cigarette - Lucky Strike!

Perfect mildness? You bet. Scientific tests, confirmed by three independent consulting laboratories, prove that Lucky Strike is milder than any other principal brand. *Rich taste?* Yes, the full, rich taste of truly fine tobacco.

Only fine tobacco gives you both real mildness and rich taste. And Lucky Strike means fine tobacco. So enjoy the happy blending that combines perfect mildness with a rich, true tobacco taste. Be Happy—Go Lucky!

L.S./M.F.T.-Lucky Strike Means Fine Tobacco

In German class the word is "Ja."
In French the word is "Oui."
In smoking "Yes" is best expressed
By L.S./M.F.T.
